Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Auditing standards for Islamic Financial Institutions and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 31 March 2022 condensed consolidated interim financial information is not prepared, in all material respects, in accordance with the basis of preparation and presentation as stated in note 2 of this condensed consolidated interim financial information.

2.2 COVID-19 IMPACT

On 11 March 2020, the Coronavirus (COVID-19) outbreak was declared a pandemic by the World Health Organization (WHO) and has rapidly evolved globally. This has resulted in a global economic slowdown with uncertainties in the economic environment. Global equity and commodity markets have also experienced great volatility and a significant drop in prices. The estimation uncertainty is associated with the extent and duration of the expected economic downturn and forecasts for key economic factors including GDP, employment, oil prices etc. This includes disruption to capital markets, deteriorating credit markets and liquidity concerns.

The management and the Board of Directors (BOD) has been closely monitoring the potential impact of the COVID 19 developments on the Group's operations and financial position; including possible loss of revenue, impact on asset valuations, impairment, review of onerous contracts and debt covenants, outsourcing arrangements etc. The Group has also put in place contingency measures, which include but are not limited to enhancing and testing of business continuity plans including its liquidity requirements.

In preparing the condensed consolidated interim financial information, judgements made by management in applying the Group's accounting policies and sources of estimation are subject to uncertainty regarding the potential impacts of the current economic volatility and these are considered to represent management's best assessment based on available or observable information.

A. New standards, amendments, and interpretations issued and effective for annual periods beginning on or after 1 January 2022.

FAS 38 Wa'ad, Khiyar and Tahawwut

AAOIFI has issued FAS 38 Wa'ad, Khiyar and Tahawwut in 2020. The objective of this standard is to prescribe the accounting and reporting principles for recognition, measurement and disclosures in relation to shariah compliant Wa'ad (promise), Khiyar (option) and Tahawwut (hedging) arrangements for Islamic financial institutions. This standard is effective for the financial reporting periods beginning on or after 1 January 2022 with an option to early adopt.

This standard classifies Wa'ad and Khiyar arrangements into two categories as follows:

a) "ancillary Wa'ad or Khiyar" which is related to a structure of transaction carried out using other products i.e. Murabaha, Ijarah Muntahia Bittamleek, etc.; and

b) "product Wa'ad and Khiyar" which is used as a stand-alone Shariah compliant arrangement.

Further, the standard prescribes accounting for constructive obligations and constructive rights arising from the stand-alone Wa'ad and Khiyar products and accounting for Tahawwut (hedging) arrangements based on a series of Wa'ad and Khiyar contracts.

There was no material impact on the Group upon adoption of this standard.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION As at 31 March 2022

This standard does not prescribe the method for determining the Zakah base and measuring Zakah due for a period. An institution shall refer to relevant authoritative guidance for determination of Zakah base and to measure Zakah due for the period.

The Group is assessing the impact of adoption of this standard.

ii) FAS 1 General Presentation and Disclosures in the Financial Statements

The estimated fair value of yielding financing assets and financing liabilities approximates their carrying value as their pricing is not materially different to expected market return on such contracts.

The estimated fair values of other financial assets are not expected to be materially different from their carrying values as of 31 March 2022 and 31 December 2021 due to their short term nature.

18 FINANCIAL RISK MANAGEMENT

The Group's financial risk management objectives and policies are consistent with those disclosed in the annual consolidated financial statements for the year ended 31 December 2021.

Russia-Ukraine conflict

The current ongoing conflict between Russia-Ukraine has triggered a global economic disruption and has, amongst other impacts, led to increased volatility in financial markets and commodity prices due to disruption of supply chain which may affect a broad range of entities across different jurisdictions and industries.

The management has carried out an assessment of its portfolio and has concluded that it does not have any direct exposures to / from the impacted countries. However, potential for indirect exposures continue to exist. At this stage it is difficult to quantify the full impact of this conflict since it depends largely on the nature and duration of uncertain and unpredictable events, such as further military action, additional sanctions, and reactions to ongoing developments by global financial markets. The management will continue to closely monitor impact of this evolving situation on its portfolio to assess indirect impact, if any. As at 31 March 2022 the Group does not have any direct material impact of this conflict.

19 REGULATORY RATIOS

1) Liquidity Coverage Ratio (LCR)

LCR has been developed to promote short-term resilience of a bank's liquidity risk profile. The LCR requirements aim to ensure that a bank has an adequate stock of unencumbered high quality liquidity assets (HQLA) that consists of assets that can be converted into cash immediately to meet its liquidity needs for a 30 calendar day stressed liquidity year. The stock of unencumbered HQLA should enable the bank to survive until day 30 of the stress scenario, by which time appropriate corrective actions would have been taken by management to find the necessary solutions to the liquidity crisis.

LCR is computed as a ratio of Stock of HQLA over the net cash outflows. The average consolidated LCR for three months calculated as per the requirements of the CBB rulebook, as of 31 December 2021 and 31 December 2020, is as follows:

	Total weighted value BD'0	00	
	31 March 2022 (Reviewed) 31 December	r 2021 (Audited)

2) Capital Adequacy Ratio

The primary objectives of the Group's capital management policies are to ensure that the Group complies with externally imposed capital requirements and that the Group maintains strong credit ratings and healthy capital ratios in order to support its business and to maximise shareholders' value. Capital adequacy for each of the group companies is also managed separately at individual company level. The Group does not have any significant restrictions on its ability to access or use its assets and settle its liabilities other than any restrictions that may result from the supervisory frameworks within which the banking subsidiaries operate.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividend payment to shareholders or issue capital securities. No changes were made in the objectives, policies and processes from the previous years.

The regulatory capital and risk-weighted assets have been calculated in accordance with Basel III as adopted by the CBB.

2) Capital Adequacy Ratio (continued)

As per CBB instructions, the above concessional treatment would be followed for two years ending 31 December 2020 and 31 December 2021, thereafter this amount will be proportionately deducted from Tier 1 capital for three years ending 31 December 2022, 31 December 2023 and 31 December 2024.

20 NET STABLE FUNDING RATIO

The objective of the NSFR is to promote the resilience of banks' liquidity risk profiles and to incentivize a more resilient banking sector over a longer time horizon. The NSFR limits overreliance on short-term wholesale funding, encourages better assessment of funding risk across all on-balance sheet and off-balance sheet items, and promotes funding stability.

NSFR is calculated in accordance with the Liquidity Risk Management Module guidelines, issued by CBB and its affective from 2019. The minimum NSFR ratio as per CBB is 100%. However, as per latest CBB circular OG/417/2021 dated 23 December 2021, the limit has been reduced to 80% until June 2022, to contain the financial repercussions of COVID-19.

The NSFR (as a percentage) as at 31 March 2022 is calculated as follows:
