**Financial Impact of COVID-19**

Bahraini Dinar Thousands

As per the Central Bank of Bahrain (“the CBB”) directions through their circular OG/259/2020 dated 14<sup>th</sup> July 2020 with the objective to maintain transparency amidst the current implications of Coronavirus (COVID-19), the BCFC Group is providing following additional information in relation to the financial impact of COVID-19 on its financial statements.

The COVID-19 outbreak earlier in 2020 has had multiple implications on the Group, from stressed market conditions, significant reduction in sales of its product and services, reduction in cashflows from the loan book and disruption of its normal operations due to social distancing norms and restricted commercial activities. The CBB, along with the Government of Bahrain, have adopted numerous relief measures. In March 2020, the CBB announced a six-month loan deferral to all qualifying Bahraini individuals and companies. Subsequently, the CBB instructed its licensees to take the present value of the shortfall in interest income (termed the “modification loss” under IFRS) arising from this deferral directly to equity, net of any government grants received. The initial modification loss recorded by the Group amounted to BHD 16,122. Subsequently, the Group has made reversal of BD 770 to equity due to early settlements of loans and repayment of credit card balances. The Group had received BHD 1,412 grants in the form of salary subsidy and electricity and water bill reductions.

The table below summarizes the impact of the various measures and market conditions on the Group as at 30 June 2020:
