#### 18. **IMPACT OF COVID-19**

The outbreak of the novel Coronavirus (COVID-19) in early 2020 in most countries has caused widespread disruptions to business, with a consequential negative impact on economic activities. The Company is continually monitoring its impact, while working closely with the local regulatory authorities, to manage the business disruption of the COVID-19 pandemic. However, the Company did not have any operational disruption during the period.

In light of COVID-19, the Company has considered whether any adjustments and changes in judgments, estimates and risk management are required to be considered and reported in the condensed interim financial information. Below are the key assumptions about the future and other key sources of estimation that may have a significant risk of causing material adjustments to the condensed interim financial information:

#### Impairment of non-financial assets:

The Company has performed a qualitative assessment, considering the minimal impact of COVID-19 on entities operating in the telecommunication sector, and compared the actual results for the period against the budget and industry benchmarks to conclude the impairment assessment as at 31 December 2020 remains largely unchanged.

The Company has also considered any impairment indicators arising and any significant uncertainties around its property and equipment, intangible assets and right-of-use assets especially arising from any change in lease terms and concluded there is no material impact due to COVID-19.

#### Expected Credit Losses ("ECL") and impairment of financial assets:

The Company has applied management overlays on the existing ECL models by applying probability weightage scenarios on the relevant macroeconomic factors relative to the economic climate of the respective market in which it operates. The Company continues to monitor the appropriateness of the management overlays considering evolving impact of current pandemic situation.

#### Commitments and contingent liabilities:

The Company has assessed the impact of any operational disruptions, including any contractual challenges and changes in business or commercial relationships among the Company, customers and suppliers, with a view of potential increase in contingent liabilities and commitments and no issues were noted.

#### Going concern:

The Company has performed an assessment of whether it is a going concern in the light of current economic conditions and all available information about future risks and uncertainties. The projections have been prepared covering the Company's future performance, capital and liquidity. The impact of COVID-19 may continue to evolve, but at the present time the projections show that the Company has ample resources to continue in operational existence and its going concern position remains largely unaffected and unchanged from 31 December 2020. As a result, this condensed interim financial information has been appropriately prepared on a going concern basis.

## ZAIN BAHRAIN B.S.C. SUPPLEMENTARY INFORMATION - NOT REVIEWED

## SUPPLEMENTARY DISCLOSURES RELATED TO THE IMPACT OF COVID-19 (NOT REVIEWED)

Further to the CBB letter dated 14 July 2020 (ref. OG/259/2020), Zain Bahrain B.S.C. ("Company") provides the following information relating to the interim condensed financial statements as of March 31, 2021:

#### A. The overall impact on the financial statements

The Company's overall financial statements have not been impacted significantly due to the impact of the Covid–19 pandemic. As the Covid–19 outbreak continues to evolve, it is difficult to forecast its full extent and duration of the economic impact as of now. Management believes, based on their assessment, that the Company has sufficient liquidity available to continue to meet its financial commitments for the foreseeable future as and when they become due.

B. The impact on Income Statement	
Revenues	The industry has faced serious challenges in terms of roaming revenues due to heavy travel restrictions impacting significantly the inbound and out bound roaming. This revenue stream is generally cyclical in nature and has been significantly impacted due to Covid–19. However, the composition of roaming revenue in relation to the overall revenue of the Company is not significant, hence, no material impact on the interim condensed financial statements for the three-month period ended March 31, 2021.
Expenses	The Company was agile in implementing cost optimization initiatives aimed at reducing costs and minimizing the impact of top-line pressure resulting in an overall positive variance in the operating cost.
Net income	The consequential impact resulting from the above is not considered material.

C. The Impact on Balance Sheet	en de la companya de La companya de la co
Assets	The management of the Company is closely monitoring the situation resulting from Covid-19 and its impact on the Company's operation, cash flows and financial position. Management believes, based on their assessment, the inherent value of property and equipment appearing in the condensed interim financial information as of March 31, 2021 has not been impaired. Furthermore, taking into account the necessary adjustments relating to ECL model, the receivables and other assets are stated at the appropriate amounts and do not require any adjustment as at March 31, 2021.
Liabilities	The Company currently does not have any borrowings.
Net equity attributable to shareholders	No material change.
Other material impact on the Balance Sheet	None other attributable to Covid-19.

#### D. The impact on the company's ability to continue as going concern

The Company has performed an assessment of whether it is a going concern in the light of current economic conditions and all available information about future risks and uncertainties. The projections have been prepared covering the Company's future performance, capital and liquidity. The impact of COVID-19 may continue to evolve, but at the present time the projections show that the Company has ample resources to continue in operational existence and its going concern position remains largely unaffected and unchanged from December 31, 2020. As a result, this condensed interim financial information has been appropriately prepared on a going concern basis.
